

Your child is invited to attend school for their lateral flow test at:

Time & Date

On arrival to school, they should go directly to the old sports hall and follow the signage.

Lateral Flow Testing – registering a test

When students complete their COVID-19 Lateral Flow Test, they will receive a registration card with a barcode so that they can register their test and receive their result.

All students can register their test online so that they receive their results. Students over 13 years of age can also register for an NHS account which they can use as part of their test registration. Those students aged 13 and under cannot register for an NHS account but can still register their test online so that they (or their parents/carers) can receive their result.

Students will also need the site ID for Driffield School which is **DRRD**. We have also printed this onto a sticker and stuck this onto the registration card.

Instructions for registering a Lateral Flow Test:

- Students should go to: <https://test-for-coronavirus.service.gov.uk/register-kit> or use this QR code:

- Click on 'Start now'.
- Click on 'myself'.
- At this stage you can either 'Register without using NHS login' or 'Register using NHS login'. Students aged 13 and over can create an NHS account if they wish. You are not required to do this and can just select 'Register without using NHS login' if you would prefer to register your test without creating an account.
- You will then be prompted to enter their barcode from the test. If using a phone or tablet, they can use their camera to scan the barcode (webcams will also work for this).
- You will then be prompted to input the site ID. This is **DRRD**.
- You will then need to confirm the test site is Driffield School & Sixth Form and then should select 'I went to this test site'.
- The next question is 'were you asked to take part in daily contact testing' – you should select 'No'.
- The next stage is to enter the date and time.
- You will then be prompted to fill in their personal details. It is important that these are correct. Please check that the mobile number you have entered is correct and it is the one which you want the result to come too. You will be given the opportunity to check all your information before submitting.
