## Dear Parent or Carer

## National Careers Week Monday 1 March – Friday 5 March 2021

National Careers Week is celebrating its 10<sup>th</sup> Anniversary this year, a year when hope for the future and belief in the potential of careers is needed more than ever. We want to encourage families to have conversations about careers and the future, especially this year in these challenging times. You can support young people to start exploring, spark their curiosity and plan for a bright future by talking about careers during National Careers Week.

## Virtual Careers Fair

During National Careers Week there will be a Virtual Careers Fair. Students do not need to register in advance and it will be live from day 1. To access the Virtual Career Fair please visit <u>https://ncw2021.co.uk/</u>

We are celebrating at Driffield School and Sixth Form by including career assemblies and careers embedded into every curriculum area with video clips of jobs, apprenticeships and FE and HE opportunities. Times are changing and different job opportunities are available. We want our students to be ready to embrace these new opportunities and be successful in their future career. Year 10, 11, 12, 13 and 14 students have the opportunity to complete a free self-study course with Eton College. This will help develop desirable employability skills.

The free courses for each year group are:

• Year 10 CV Writing
