

29 April 2022

Dear Parent or Carer,

**RE: Nasal Flu Vaccination programme**

Following the recent communications, Public Health England have advised that students in Year 7 – 11 will **not** be provided with the Nasal Flu Spray vaccination this flu season. If your child usually receives a Nasal Flu Spray vaccination due to specific medical reasons, you are advised to contact your child's GP direct from 1 October 2022 onwards to schedule their vaccination.

Yours faithfully,

**The East Riding Immunisation Team**
