Dear Parent or Carer,

RE: Maths Revision Session

The mathematics department will be holding a revision session on Saturday 11 June. The session is designed to build on your child's independent revision work and the topics covered in the Period 6 sessions. This has been planned to be delivered just before the final maths paper and will give us an opportunity to specifically target the calculator topics that we know will be covered in that exam.

The session will run from 9 am to 12 noon in the North building maths classrooms. The canteen will not be open on the day, so your child should bring a drink and snack with them if they want to. As this will be focussing on calculator work, your child should make sure they remember to bring their scientific calculator.

We strongly recommend that your child attends this session to give them the best opportunity to be fully prepared for the final exam and to support them in achieving their potential in the maths GCSE.

Please could you use the link below by Friday 27 May to indicate if they will be attending:

Thank you in advance.

Yours faithfully,

Mrs C Hogben
Director of Maths
