Dear Parent or Carer,

RE: Parental Workshops

Through this academic year we have a number of workshops and sessions planned to support parents and carers in our school community.

Some of these sessions are academically focused (giving you insight into supporting your child through exam periods at Key Stage 4, or helping them to work on their literacy, numeracy and independent study skills). We've also been fortunate to work with MIND to include a programme of sessions that will focus on supporting children's mental health.

The first of these parental workshops is going to be on Friday 21 October where there will be afternoon sessions on "supporting your child with reading for pleasure" and "supporting your child with numeracy". These will be running at the same time and will be repeated later in the year as a twilight session should you wish to attend both of the sessions. Teachers from our English and mathematics departments will be delivering the sessions.

The event will start from 1.15 pm with tea, coffee and cake available in the ACE building where the main school reception is. There is a planned start for the session of 1.30 pm. The session will then last approximately 30 minutes with an opportunity for any questions at the end.

If you are interested in joining us for either of these, please access the links below. Spaces are limited for this first daytime event, but if it is popular we will look at offering some additional day time sessions.
