Dear Parent or Carer,

**RE: Year 9 HPV Vaccines**

Students in Year 9 are scheduled to receive their second dose of the HPV vaccine. This follows on from receiving their first dose during Year 8. If you consented to your child receiving their HPV vaccine whilst in Year 8, this will carry over for your child now in Year 9.

Vaccinations are scheduled to take place in school on Thursday 8 June 2023.

The HPV vaccine has for many years been offered to all students in Year 8 and Year 9. The evidence shows that the HPV vaccine helps to protect students from HPV related cancers. To receive the best protection, it is important that your child receives both doses, scheduled 6 to 12 months apart.

The vaccinations will take place in school on Thursday 8 June 2023. Please add this date to your calendars. Students will be notified in school of their vaccination time.

If your child has already had the HPV vaccination recently please disregard this message. Alternatively, if you need to provide new consent or make enquiries regarding consent for your child, please contact the Immunisation Team directly using the contact number below.

If you have any problems or you prefer to discuss the vaccination or check consent, please telephone 0333 358 3397 option 2 (1, 2)

Many thanks,

*Immunisation Team*
