Dear Parent or Carer,

RE: Physics Revision Session

The science department will be holding a physics revision session on the afternoon of Thursday 15 June, the afternoon after the Year 11 leavers assembly. The session is designed to build on your child's independent revision work and the topics covered in the after school and lunch time revision sessions. This has been planned to be delivered just before the final physics paper and will give us an opportunity to specifically target the topics covered in that exam.

The session will run from 1.30 to 3.30 pm in rooms EB110 and EB108.

We strongly recommend that your child attends this session to give them the best opportunity to be fully prepared for the final physics exam and to support them in achieving their potential in the science GCSE.

Please could you use the link below by Monday 22 May to indicate if they will be attending:

Thank you in advance.

Yours faithfully,

Mrs R Backhouse
Director of Science
