Dear Parent or Carer,

RE: AQA Level 2 Certificate in Further Mathematics

I am delighted that your child has been following the further maths course through Year 10. The course continues in Year 11 on a Thursday period 6 and will be in room N306 with Mr Hill.

We had excellent results from the first group of students to sit this qualification at Driffield School with 100% of them achieving grades 5 and above and 73% gaining grades 9-7. We are also thrilled that all the students who returned to Driffield Sixth Form have chosen to study mathematics with some also continuing their further mathematics studies.

As a reminder, this course will be completed at the end of Year 11 with two exam papers (each lasting 1 hour 45 minutes). Upon successful completion of the course, students will gain the equivalent of an additional GCSE (which is graded from 9-5). There is an expectation for work to be completed in students' own time (through homework, revision and past papers) as with all subjects at Driffield School.

If you have any questions about the course, please contact myself or Mr Hill.

Yours faithfully,

Mrs C Hogben
Director of Maths
