

12 March 2024

Dear Parent or Carer,

RE: Science Tuition

I am writing to you to inform you about an extra online tuition resource we have purchased as a school to support our Y11 students. It is an online live tuition service provided by Kay Science that provides instruction videos for trilogy and triple science students, as well as maths tuition videos. Students are already using Kay Science for some science homework and revision and have their log on details. If students have forgotten their details the information is below:

Logging on

[KayScience | Watch, Learn and Revise with Kay Science](#)

All students are set up with their own username and password.

e.g.

Username: isaacnewton6032

Password: isaacnewton6032

There are no spaces and no capital letters required, and everyone has 6032 at the end. Students can change their log in details when they first sign in.

The link below is a short video that can be watched for how to join lessons:

<https://www.youtube.com/watch?v=CihC6F17vE0>

Kay Science are currently on week 4 of the sessions but all previous sessions can be viewed following this private YouTube link which will be updated on a weekly basis (you may have to copy and paste the link into YouTube):

<https://www.youtube.com/playlist?list=PLUgKo2B9H0ALIW839xGu84ZEq336mPsZH>

Students can re-watch these lessons, or watch for the first time if they missed it in the evening.

Next week will be week 5, where they will teach additional separate/triple science and maths higher only lessons, each evening. Therefore the timing of the lessons will slightly change to:

- 4.30 - 7.30 pm: combined science and maths lessons (Mon to Thurs)
- 7.30 - 9.30 pm: separate/triple science and higher only maths lessons (Mon to Thurs)

Lessons are looped to give all students a chance to join them.

Information outlining what is in each session can be found in the Tuition Scheme of work attached to this letter.

Class teachers will upload all the scheme of work documents onto their class Microsoft Teams page.

If you have any questions please do not hesitate to contact me.

Yours faithfully,

Mrs R Backhouse
Director of Science
