Dear Parent or Carer,

RE: New National T Level Qualification

We are writing to share some exciting information regarding a new national T Level qualification launching from September 2027. As one of the first schools in the country preparing to deliver this qualification, current Year 9 students are part of the first group who may be able to access this opportunity when they reach post-16 study. For that reason, we want to ensure that students and families are fully informed at an early stage, so that they understand what the qualification involves and how it could support a successful future career.

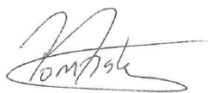

As part of our preparation for this, your child will have access to a hands-on STEM-linked workshop, employer encounters and insight sessions which are designed to help them make informed decisions as they move towards GCSE options and, later, post-16 pathways. The programme will build awareness, spark aspiration and ensure that when students are making post-16 choices, the T-Level is seen as a high-value, exciting and attainable option should they wish to follow this pathway.

The workshop and experiences being offered will contribute strongly to students' wider personal development and understanding of modern industry. It will cover a wide range of transferable skills including leadership, teamwork, digital innovation, project planning and sustainability; skills which are relevant to all career pathways.

A 2-hour workshop will be taking place for all Year 9 students on Monday 10 and Tuesday 11 November. Students will be informed by their tutors which workshop to attend.

If you have any questions or would like further information about the upcoming sessions, please do not hesitate to contact us. We look forward to supporting your child through this exciting opportunity.

Yours faithfully,

Mr Fisher
Assistant Headteacher

Mr Andrews
Head of Sixth Form
