Dear Parent or Carer,

RE: Education Record

The Government has released the 'Education Record' app for all Year 11 students for this summer, to try and modernise how young people access their exam results once they have left school.

The aim is to make it easier for young people to enrol in their post-16 destination and will give them digital access to their results, providing employers with clear, accurate information on a job candidate's education history without relying on paper certificates which can be easily lost.

Students will still go into school on results day to meet face-to-face with their teachers and receive their results. Their results become available on the app later on.

Student education records on the app will contain:

- Student name, date of birth and address
- Schools they have attended
- Official exam results for qualifications like GCSEs
- Support needs

Students can download the app at the links below:

- iPhone: <https://apps.apple.com/gb/app/education-record-england/id6477397118>
- Android: https://play.google.com/store/apps/details?id=uk.gov.education.educationrecord&hl=en_GB

Once students have downloaded the app, they need their school to register them on it so that they can receive their education record in the summer. We have provided some time slots as to when students can do this. If they do wish to register, they can do this by taking their phone (with the app installed) to:

- The data corridor in East building on any lunch time from Friday 5 June to Thursday 11 June
- The data corridor in East building after school 15:30 – 16:00 on Thursday 11 June
- The data corridor in East building during Year 11 Activate day on 29 June

The school will not be able to register students on the app if they do not have it already installed on their mobile phone before arrival.

If you have any questions, please do not hesitate to contact me.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'M. Holmes', written in a cursive style.

Mr M Holmes
Deputy Headteacher
