10 June 2026

Dear Parent or Carer,

RE: Sparx Science

We are excited to inform you that from 1 June 2026, your child will be using Sparx Science to complete their weekly Science homework. Sparx provides highly personalised homework to students, tailored to their individual attainment level and working speed.

Your child's homework will be set on the Monday of each week. Students will then have the week to complete their homework.

Students log in at sparxscience.com by finding their school and entering their username and password. Sparx Science can be accessed on any device that connects to the internet with a web browser.

We understand how important your child's success is to you. Below, you'll find information about Sparx Science, along with practical advice on how you can support them to complete their homework each week.

What is Sparx Science?

- Assigned homework will mostly focus on topics recently covered in class, along with consolidation questions on previously covered topics to embed prior learning.
- Students receive immediate feedback for each question about whether their answer was correct or they need to have another try. They earn rewards via XP for completion and effort.
- Every Sparx Science question has support available, helping your child find the guidance they need on their own. This ensures they always have the tools to succeed.
- Students also have the autonomy to further develop their scientific knowledge if they desire, via the 'Independent Learning' section of the platform.
- Homework will only be marked complete when 100% of the questions are answered correctly

How can you help your child with their homework?

- Provide a quiet space for your child to focus on their homework, with minimal distractions.
- Encourage your child to start their homework early.

The Education Alliance is a charitable limited company registered in England and Wales No. 7542211 whose registered office is at East Dale Road, Melton, North Ferriby, HU14 3HS.

- Please let them attempt questions independently. Sparx Science will automatically adjust the level of questions provided based on your child's answers.
- If your school has parent emails enabled, keep track of your child's progress within their homework by checking the weekly email sent to you from Sparx.
- Find out more about Sparx Science here: sparxscience.com

What support is available at Driffield school?

- Computers are available to use during lunch in the library as well as homework club which runs every lunchtime in room IT1.
- The website is easily accessible via phones as well as laptops. It may be useful to bookmark the page and have your child add this to their screen.
- All science teachers can help with queries about Sparx and logging in.

If you have any questions, please contact your child's science teacher.

Yours faithfully,

Mrs R Backhouse
Director of Science
